# Connecting Product Value to Technology

Tech and Product Co Creation to achieve Value

# Understanding of Team Topologies and Organization

## Stream-aligned team

Organized around the flow of work and are optimized to build and deliver value quickly, safely, and independently.

## Complicated subsystem team

Provide specialists to reduce the cognitive load on other teams.

## Platform team

Organized around the development and help stream-aligned teams to deliver work with substantial autonomy.

## Enabling team

increase the autonomy of stream-aligned teams by growing their capabilities with a focus on problems, rather than solutions.
